

WHAT **NOT** TO PACK in your checked baggage

You have a packing list for your trip, but there are some things you should *never pack in checked baggage*:

Travel Documents

Medication

Cash & Credit Cards

Valuable Jewelry

Fragile Items

Laptops & Electronics

Anything essential to your trip or well being.

A change of clothes

Plus anything you'll want on the first day of your vacation.

Keep these items in your carry-on bag, so you have them when you need them!
